

# Package Example

Team Learn ShareLaTeX

## 1 Introduction

In this document a new package is tested. This package allows special numbered environments

**My environment 1.** This text is inside a special environment, some boldface text is printed at the beginning and a new indentation is set.

Also, there's a special command for **important words** that will be printed in a special **colour** depending on the parameter used in the **package** importation statement. Because it's **important**.

### Informações Críticas!

How to get some MATHEMATICA code (shown below) in this box...
